

How to Complain about  
**Social Care**  
**Services**

in Worcestershire

Healthwatch Worcestershire has prepared this guide at the request of local people who have found difficulties in navigating around the complaints process. The following information applies to publicly funded health and social care services.

If you choose to make a complaint about a health or social care service that you have received we would like to hear your experiences. For further information on the complaints process please contact us.

### **Adults Social Care Services**

If you are unhappy with the care you, a relative or friend has received from a care home, nursing home, home-care agency or other social care service, you have the right to make a complaint. If your complaint relates to a medical or health service in these settings e.g. dental or GP services, you will need to follow the healthcare complaints process.

Social care can be funded by the local authority or privately and there are different processes in place for both ways of funding.

For publicly-funded social care, a complaint can be made in 2 ways:

- Directly to the service provider  
e.g. the Care/Nursing Home
- To the Local Authority  
e.g. Worcestershire County Council

### Service Provider

Ask to see a copy of the complaints procedure for the service you are unhappy about and this will tell you who to contact. The service provider may be able to resolve any problems before taking it further.

If you are unhappy with the service provider's response you can then pursue your complaint with the local authority.

### Local Authority

Local councils fund social care for many of their residents. If the care you received was arranged or funded by the council, you can complain to them directly instead of the service provider if you prefer.
